341.5 THE POLLUTION CONTROL AND LOCAL GOVERNMENT (NI) ORDER 1978

USE OF LAND 180M SW OF 62 KIRK ROAD, BALLYMONEY AS A MOTO CROSS CIRCUIT

On 19th November 2007, at a meeting of Ballymoney Borough Council, planning application ref D/2005/0305/F proposing a change of use of the above agricultural land to moto cross circuit was refused on the basis of unacceptable use in greenbelt.

It had been brought to this department's attention that this land is continuing to be used as a moto cross circuit on a regular basis. This matter was passed to Planning Enforcement on 14th February 2008 for further action.

Officers from this department have reviewed the case with regard to the existence of a statutory noise nuisance and Ballymoney Borough Council's statutory obligations under the above Order. Formal letters to the owner of the land and organiser of the moto cross circuit have been issued to advise that this department will be recommending to Council that an Article 38 notice be served under the above Order to require the abatement of the nuisance and to prohibit the recurrence of the noise nuisance.

IT IS RECOMMENDED that Council serve an abatement notice under Article 38 of The Pollution Control and Local Government (NI) Order 1978 to prohibit recurrence of the aforementioned noise nuisance.

The Deputy Director responded to members' questions with respect to the length of time of operation of the circuit and other planning issues. He also advised of the efforts made by the Director in seeking information from the operator regarding proposed noise mitigating measures. Members wished it to be recorded that they were disappointed that the operator had not provided information regarding noise control measures as requested by Council previously. Being satisfied of the existence and likely recurrence of a noise nuisance:

It was proposed by Councillor Stevenson, seconded by Councillor Finlay and
AGREED:

to recommend that Council serve an abatement notice under Article 38 of The Pollution Control and Local Government (NI) Order 1978.

Correspondence from NILGA was received on 20th inst. by the Borough Services Directorate regarding Government Action on Climate Change and was circulated to members at the meeting. Council's response is requested by 20th June 2008 at the latest.

IT IS RECOMMENDED that Committee consider the correspondence and declaration received from NILGA regarding climate change action and make recommendation(s) to Council on the matter.

The Director pointed out that were Council to subscribe to the NI district council declaration proposed by NILGA that this would inevitably have resource implications for Council both finance and people in order to participate in the proposed baseline survey work and action plan preparation and implementation.

In the ensuing discussion a number of Members expressed differing views.

It was proposed by Councillor Kennedy, seconded by Councillor Finlay

to recommend that Council note the correspondence from NILGA.

An amendment to the motion was put forward:

Skin cancer, particularly malignant melanoma, is continuing to rise in Northern Ireland and rates are increasing by an average of 4 men and 9 women each year. Research has indicated that this trend will continue and we could see a trebling of malignant melanoma rates over the next 30 years with people being diagnosed at a younger age.

Ulster Cancer Foundation has funded the initiative which will see signs promoting care in the sun being erected at Council play parks. Officers attended the formal launch of the initiative in May at Ballysally Community Centre; however, a local launch will be held in the coming month on delivery and erection of the signs in the local parks, date to be advised.

2) Fuel Poverty

Persons could receive information on how to insulate their homes and on any grants available to assist with this. In addition information was given on Ballymoney's Affordable Fuel Scheme.

This was the second time the Directorate has taken the opportunity to use the show to raise publicity of its services and feedback from the public and those Officers who participated was excellent.

The Chair congratulated the Directorate in addressing these issues at the show.
